## Basque Troops Driven Through Bilbao Suburbs

Cables to France From North Spanish City Cut As Insurgents Press Forward

## Smoke Rises From Neighboring Town

PARIS (CP-Havas)—Cable communications connecting Bilbao with Paris and London were suddenly broken off tonight.

HENDAYE, Franco-Spanish frontier (AP)—The insurgent army command announced tonight its troops had fought their way into Begona, northeastern suburb of Bilbao, while Basque defenders fortified houses and built barricades for a last stand of their traditionally invincible capital.

The insurgents also said pillars of smoke were arising from Baracaldo, on the west bank of the Nervion estuary, about two miles north of Bilbao.

Disorders between Basques who purportedly wanted to evacuate the city and others who wanted to burn it were likewise reported—without confirmation from any other source—by the insurgents.

## LINE ROLLED BACK

BILBAO, Spain—An insurgent thrust against the suburbs of Begona and Galdakao rolled Bilbao's long-besieged defenders back on their rear lines today.

Generalissimo Francisco Franco's massed infantry, having already cracked the Basque capital's "iron ring" of fortifications, struck at the two strategic outposts in long rolling waves, led by fast tanks and supported by heavy artillery and co-ordinated squadrons of bombing planes.

The continuous thrusts against the two cities were admitted to have caused the defenders "to fall back on their rear guard line."

The insurgent advance was temporarily halted, however, both at Begona, practically at the outskirts of the city to the north, and at Galdakao, only four miles southeast.

## WEDGE DRIVEN

With insurgents at the edge of Bilbao (AP)—General Francisco Franco's northern insurgent army drove a deep wedge today between the broken Basque "iron ring" defence and the Nervion River in their drive on Bilbao. The insurgents forged their own belt of iron about the city, fanning out inside the mountain (Turn to Page 2, Col. 5)

## MINE FLOOD BREAK FOUND

Engineers Discover Where Water Entered Beban Pit, Causing Deaths

NANAIMO — George O'Brien, resident British Columbia government engineer, announced today provincial investigators had determined water which last Friday afternoon killed three men in the Beban coal mine, seven and a half miles southwest of here, entered the mine through the "face" of the main slope of the workings.

Mr. O'Brien said he and James Dickson, chief inspector of mines for the province, had examined the workings after powerful pumps had drained them of an estimated 40,000 gallons of water that had surged through the mine.

"The underground crew drilled right into the water," Mr. O'Brien stated.

The engineer said it was possible the miners had "tapped" a seepage-filled tunnel of the long-abandoned adjoining Extension mine. Such a tunnel could have been the reservoir which loosed Friday's flood into the Beban property when the slope-face collapsed, he said.

## CHARTS FOR INQUEST

Today government surveyors entered the Beban mine to prepare charts for submission at the resumed inquest session next Monday. Yesterday's hearing was adjourned pending the investigation by Messrs. Dickson and O'Brien.

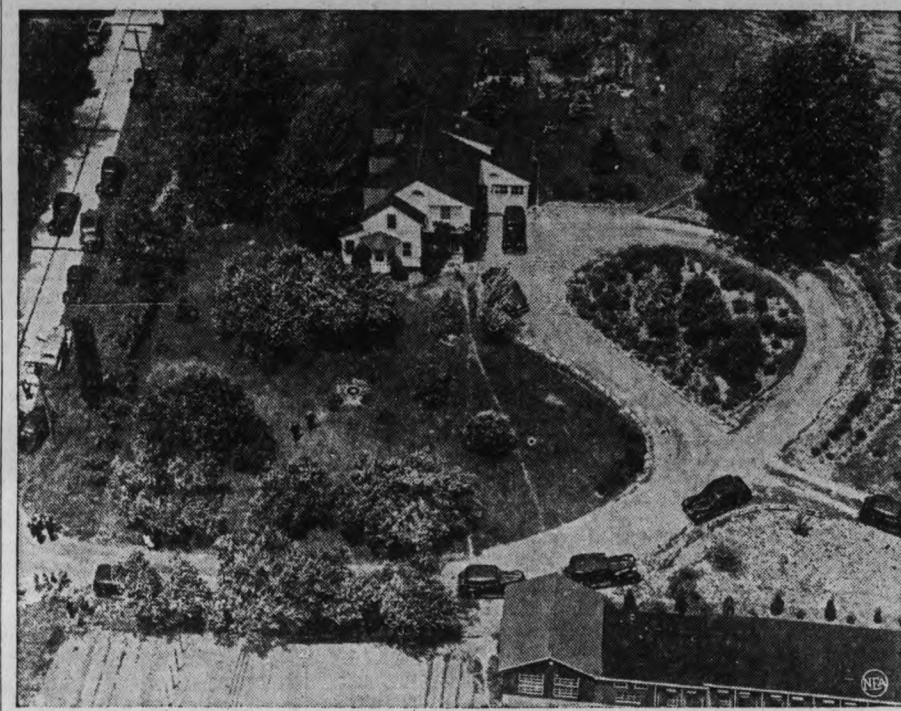

Residents of this Vancouver Island mining town prepared to attend a funeral service this afternoon for the late Joseph Carr, one of the miners whose body was brought from the drained workings yesterday, a few hours before a double funeral for the late Nelson Shepherd and his nephew, Joseph Shepherd, was held.

Louis Tognello, one of two men rescued from the flooded mines, was recovering in a hospital today. John Senini, the other, was back with his family, fully recovered from his 10-hour underground imprisonment.

## INCREASE IN FATALITIES

Six Persons Killed in Local Accidents; Highest in Five Years

Fatal traffic accidents this year are showing an alarming increase over former years, and at the present rate the 1937 figures will be far higher than any for the last five years, police figures indicate.

To date there have been six persons killed in traffic accidents, which is as many as there have been in any 12-month period since 1932. These figures are for Victoria only.

Last year there was only one victim of a fatal crash.

The highest numbers of fatalities during the last five years were in 1935 and 1933, when there were six persons killed. In 1934 there were four deaths and the same number in 1932.

## Suspect Held In Mattson Case

CHICAGO—Police Sgt. Wrag said a prisoner held today at the Burnside Police Station was described by a United States Department of Justice agent as "bearing an unusually close resemblance" to the suspect sought for the kidnapping and murder of 10-year-old Charles Mattson, son of a wealthy Tacoma, Wash., physician, last December.

The man was arrested last Friday, Wrag said, while tampering with a parked automobile.

## No New Debt Payment Plan

WASHINGTON—Sir Ronald Lindsay, British ambassador, notified Secretary of State Hull his government's installment of \$85,670,765 on war debts due to the United States today would not be met. He added that as yet Great Britain had no proposal to offer looking toward a settlement of the account now in default since 1933.

Britain's total defaulted debt, including today's installment, amounts to \$871,815,601.

## Garbage Men Tell of Change at House on Day Mrs. W. H. Parsons Disappeared

STONY BROOK, N.Y. (AP)—Two garbage collectors told United States Department of Justice agents today that on the day Mrs. William H. Parsons, society matron, vanished, they were not allowed to enter the Parsons's Long Island home when they called. It was the first time such a thing had happened in four years, they said.

The collectors, Arthur Chadwick, 31, and his negro helper, George Winfield, told their story to Earl Connelley, inspector of the Federal Bureau of Investigation, and Assistant District Attorney Lindsay Henry of Suffolk County.

It was their custom to enter the house, they said, descend to the basement and collect the garbage, but on Wednesday they were met by Mrs. Anna Kupryanova, Russian housekeeper and companion to Mrs. Parsons, who pointed to a large package tied with cord, and told them:

"That's all."  
They also told Connelley the Parsons's automobile, which Mrs. Kupryanova had said stood outside the house all day, was in the garage when they called.  
"This story may be extremely important," Assistant District Attorney Connelley said.

## Franco Sending Iron to Reich

LONDON — British concern for valuable Basque iron ore supplies mounted today. Oliver Stanley, President of the Board of Trade, informed the House of Commons General Franco already had diverted some Spanish minerals from Great Britain to Germany and Italy.

## Blum Cabinet Is Facing Test

PARIS (AP)—Premier Leon Blum's government faced the prospect of overthrow tonight as the Communists, important element of his People's Front, refused to support his appeal for full powers to solve the financial crisis by decree.

## Earhart Plane Now in India

Fliers Land at Karachi After Long Hop From Eritrea

KARACHI, India—Amelia Earhart and Capt. F. J. Noonan, her navigator, arrived here tonight at 7.05 (6.05 a.m. P.S.T.), completing a long and interrupted hop from Masawa, Eritrea, on their "just-for-fun" flight around the world.

The plane had been unreported for more than 29 hours on a leg of the flight that lay over the Arabian desert and mountains and for about 1,000 miles across the Arabian Sea.

Miss Earhart said they had flown from Assab, Eritrea, on the African coast of the Red Sea just north of the Gulf of Aden, to Karachi, on the Indian coast of the Arabian Sea, in one hop. The airline distance is approximately 1,400 miles.

Miss Earhart said they would stay here probably a day but that her tentative plans to take off Thursday depended on the weather.

## Postoffice Faces Suit in Strike

WASHINGTON — The Republic Steel Corporation filed suit in the district court here today to compel the United States Post Office Department to deliver packages to its strike-besieged plants at Warren and Niles, Ohio.

## R. W. Winterburn Killed As Truck Leaves Highway

Driver For David Spencer Ltd. Fatally Hurt Today On Wilkinson Road

Reginald W. Winterburn, driver for David Spencer Limited, was killed instantly at 12.20 o'clock this afternoon when the truck he was driving got out of control on Wilkinson Road, Saanich, and turned over.

Norman Brown, a visitor to Victoria who was riding in the truck with Winterburn, escaped without injury.

At the time of the accident the truck was traveling west on a curve on Wilkinson Road, about 300 yards from the intersection of Burnside Road. Out of control, according to Saanich police, the truck climbed the bank and turned over on its left side. The sliding door beside the driver was open, and Winterburn was thrown out. The truck fell on top of him, the driving mirror penetrating his skull and killing him instantly.

Brown climbed out of the upper door unhurt.

Chief Allan Rankin and Dr. David Berman, Saanich medical health officer, attended. Coroner E. C. Hart was notified and the remains were removed to Sands Mortuary.

Winterburn's home was at 1048 Falmouth Road, Saanich.

## Pattullo Given Clear Majority

PRINCE RUPERT—Final returns from Prince Rupert riding today gave Premier T. D. Pattullo a clear majority of 27 votes over his three opponents in the June 1 provincial election.

The last two polls to report raised the candidates' totals to: T. D. Pattullo (L) 1,473; G. Weaver (CCF) 733; C. L. Eviatt (C) 650; J. Bowen-Colthurst (SC) 13.

## MARBLE FALLS AT ST. PETER'S

Blocks From Pillars of Vatican Cathedral Collapse; No One Hurt

VATICAN CITY—Huge sections of several of the enormous marble pillars in St. Peter's, the world's largest cathedral, crashed to the pavement today.

The falling blocks of marble did not endanger tourists. Vatican engineers said the marble fragments probably had been loosened by sudden changes in the temperature during the last several days.

After inspecting the pillars, the engineers began to detach all marble facings that seemed insecure and roped off areas at the bases of pillars they considered unsafe.

Vatican City authorities said they would undertake extensive and costly work of aligning and refacing the tremendous pillars, of which St. Peter's has about thirty.

## BISHOP WILL RETIRE

OXFORD, Eng.—The Bishop of Oxford, Right Rev. Thomas B. Strong, has announced his retirement due to increasing age. His resignation will take effect September 30. Dr. Strong, who is 76, has been in charge of the diocese of Oxford since 1925.

## Union Dispute Seen in London

LONDON — A delegation representing the central bus committee of the Transport and General Workers' Union began a sit-down strike at Transport House today after officials of the union executive had refused to see them.

The thirty-member body, headed by A. F. Papworth, one of the rank and file leaders of the recent strike, declared its intention of staying all day in the building or until its grievances were heard.

"Our deliberations have emphasized once more the effectiveness of reason and co-operation in the conduct of international affairs. They have demonstrated anew the peoples pursuing common ideals can find means of working together to the crown."

## Weir Will Conduct School Survey Here

Plans For Junior High School Are Not Wholly Approved By Minister

A general inspection of the school system in the Greater Victoria area with a view to suggesting improvements, will be made in the fall, Hon. G. M. Weir, Minister of Education, announced today.

In the meantime, he said, tentative plans for a junior high school in Victoria will be approved. This will be made provisional so as not to conflict with developments in the future.

The minister gave no details of the junior high school proposal. A plan for this change in the city school system was drafted by George H. Deane, municipal school inspector, some months

LONDON (CP)—The Imperial Conference ended its labors today.

In the drawing-room of St. James's Palace Empire statesmen gathered, made their closing speeches and adopted reports.

The conference closed as it began — with a message of loyalty to the King. Moved by Rt. Hon. Neville Chamberlain and seconded by Rt. Hon. W. L. Mackenzie King, the message said the representatives of the governments prayed that in their "high task" the King and Queen, whose Coronation it has been our privilege to attend, may ever find inspiration in the devotion and affection of your loyal subjects which was so strikingly manifested on that happy occasion."

Mr. Chamberlain later read the following message from His Majesty:

"I sincerely thank the Prime Ministers and representatives of the governments of the British Commonwealth of Nations for their address to me from the final session of the Imperial Conference."

"The Queen and I greatly appreciate the generous terms of the message of good wishes to which it gives expression."

"I sincerely trust that the happiness and prosperity of my peoples in all parts of the Commonwealth may be enhanced as a result of the deliberations of the conference."

## HISTORIC TIMES

Prime Minister King said the Imperial Conference of 1937 always would have its association with the historic event which preceded it. Their Majesties' Coronation had vividly portrayed the vast Commonwealth, composed of autonomous nations, full statured and free, united by many ties of sentiment and understanding in common allegiance to the crown.

"It has, as well, deepened our convictions in the soundness of our parliamentary institutions, and in the unifying power of freedom," the Canadian Prime Minister continued. "Unity, of which the crown is the symbol and assurance, has been reflected in the oneness of outlook, and in the community of spirit which pervaded the conference."

## U.S. Officials Are To Visit Japanese Fishing Off Alaska

Three Tokio Government Vessels and Numerous Small Craft Operating

WASHINGTON (AP)—The State Department announced today United States government representatives would be sent to the Pacific coast and to Alaskan waters to investigate the activities of Japanese fishing vessels reported to be operating near Bristol Bay, but outside of United States territorial waters.

The action was decided on after American fishing interests in those areas had advised Washington there were in Alaskan waters an "unusually large number of Japanese fishing vessels." The communications, received about a week ago and addressed to President Roosevelt and various senators, expressed apprehension lest the Bristol Bay

salmon fisheries be invaded by the Japanese.

## LAUNCHES IN FLEET

On receipt of the reports, the government ordered an investigation by the U.S. Coastguard. This established, the State Department announcement said, that three Japanese government fisheries vessels, accompanied by numerous trailers and launches, were operating June 9 near Bristol Bay, but presumably were engaged in crabbing since the salmon run for this season has not started.

"The result of the reconnaissance," the State Department said, "indicates alien fishing interests are not operating in American territorial waters and the operations of the Japanese vessels mentioned are similar in scope and character to operations which Japanese vessels have engaged in during previous seasons."

"Information available here indicates the salmon run has not started."

### VIGILANTES IN U.S. STEEL STRIKE AREA

(Continued from Page 1)

#### MOTOR STAFFS IDLE

An additional 16,800 General Motors employees were made idle today when three plants closed down. One each in Detroit and Bay City ceased operations because of a shortage of castings. In Detroit 8,000 men were involved, and in Bay City 2,300.

The Fisher Body plant of General Motors in Cleveland closed because of a shutdown in General Motors production lines, throwing 6,500 men out of work.

Violence flared at Ambridge, Pa., where 500 C.I.O. pickets thwarted a "back-to-work" movement by 50 American Federation of Labor workers.

Chanting, "We're going to work!" the A. F. of L. men started marching to their jobs in the strike-bound National Electric Products Company. They broke and fled, however, as the C.I.O. pickets, with hoarse shouts of rage, set on them with clubs and fists. Scores were beaten.

The A.F. of L. men did not get into the plant.

#### TRACK DYNAMITED

Dynamite crippled railroad operations at Republic Steel plants on the Ashtabula-Niles branch of the Pennsylvania Railroad at Warren, O.

The explosion, blasting 80 feet of track, came an hour after 35 carloads of raw material had been shunted into the Warren Republic plant and 35 carloads of steel products had been shipped out.

Terror struck hard at Johnstown. Nine persons were wounded during a night of violence that saw steel-helmeted state police swing riot clubs and fire tear gas shells into fighting crowds of C.I.O. pickets and non-strikers at the huge Cambria plant of Bethlehem Steel.

## Canada's Export Trade Growing

Shipments in Month of May Totalling \$99,497,353 Show \$15,677,602 Increase

OTTAWA—Canada's export trade mounted rapidly during May, when the total value of Canadian products sent abroad was \$99,497,353, an increase of \$15,677,602 over May, 1936.

Wheat and cheese exports fell off as compared with May, 1936, but all other principal commodities showed increases. For the first two months of the current fiscal year, April and May, exports were \$165,014,014, an increase of \$23,770,433 over the same months in 1936.

Wheat exports in May were 8,026,507 bushels valued at \$10,529,311 compared with 27,316,983 bushels in May, 1936, valued at \$21,674,113. Wheat flour exports in May last amounted to 348,866, valued at \$2,130,325, compared with 448,653 bushels in May, 1936, valued at \$1,791,174.

Newsprint, meats, planks and boards, copper and nickel all showed marked increases in the quantities exported and prices received. Newsprint exports increased in value from \$8,907,000 to \$10,773,000 and unmanufactured nickel from \$3,191,000 to \$5,354,000.

### EMPIRE CONFERENCE IS ENDED ON PEACE NOTE

(Continued from Page 1)

together for the common good." The function of the Imperial Conference was not to formulate or declare policy, he said. The value of this, as of other imperial conferences, lay mainly in the free exchange of information and opinion and in giving that direct, immediate understanding of national and personal factors in a situation which cannot well be obtained by correspondence or direct communication.

#### SPOKE FRANKLY

"In the Imperial Conference we have enjoyed and exercised the family privilege of free, frank speech. This has contributed not only to better understanding of the tasks and problems of other members but to the attainment

of a sound, workable basis of co-operation.

"We have met at a time when events from week to week, some from day to day, have brought vividly home to us the tension of the European situation and the difficulties that beset those who are striving to bring stability out of unrest and confidence out of fear. . . .

"We are confident the goodwill that has marked our discussions will find opportunity for expression in other fields as well. . . .

"Indeed, we have reason to hope that the principles which we reaffirmed and the views whereto we have given expression may contribute not a little to better understanding among all nations and to more fruitful collaboration between them.

"While naturally we have given careful study to problems affecting members of the Commonwealth, we have examined them not in any narrow spirit but in the light of world need. Above everything our discussions disclosed how inseparable is the welfare of each member and of the Commonwealth as a whole from the peace and well-being of mankind."

#### FREE CO-OPERATION

Prime Minister Joseph A. Lyons of Australia said all had gone into the conference realizing the task was to show that the unity and solidarity of the Empire could best be maintained on the basis of free co-operation.

"Reviewing the conference in retrospect, I can say without hesitation that we have emerged triumphantly. In doing so we have shown the forebodings of those who felt the constitutional developments of the past few years might lead to disruption of the British Empire were without foundation."

The Australian delegation, Mr. Lyons concluded, felt the statement on foreign affairs, issued with the endorsement of representatives of all parts of the Empire, should have a beneficial effect on the international situation.

#### PREMIER SAVAGE SPEAKS

Prime Minister Michael Savage of New Zealand said he had come to the conference fully convinced a united British Commonwealth could bring about such a

readjustment of the economic causes of war as to make international conflict highly improbable. After listening to members of the various delegations, Mr. Savage added, he was more than ever convinced of the great part that could be played by the British Commonwealth.

He held the fervent hope "that the British Commonwealth will do its utmost to give a lead to other nations before it is too late. We can if we will."

Sir Muhammad Zafrullah Khan said India was anxious to participate in the conference deliberations on the same footing as the Dominions.

"I have no doubt she is within a measurable distance of realization of that desire," he added.

#### CHAMBERLAIN LAST SPEAKER

Rt. Hon. Neville Chamberlain, concluding the conference, said that in estimating results there was no need to look for spectacular decisions or for a startling changing of policy. Imperial conferences were not summoned to solve any particular problem or to achieve any specific result. They took the form rather of a series of family gatherings at which members of the family assembled in order to exchange information.

"Listening to the speeches made this morning and bearing in mind the real object of such a conference, no one, I think, can feel any doubt that this conference has been an unqualified success," he said. "On all the big issues, on which the welfare of mankind ultimately depends, we think alike."

Mr. Chamberlain spoke of the vast increase in world expenditures on weapons of destruction. All were agreed that no opportunity must be lost in trying to remove those fears and anxieties which were at the root of the mischief. But in the present condition of affairs to undertake unilateral disarmament would be to invite disaster.

"In their determination to bring their defensive forces to the state of efficiency in which they can maintain their security and fulfill their international obligations His Majesty's Government in the United Kingdom have good reason to believe they are making a contribution of the most important character to the cause of peace," Mr. Chamberlain proceeded.

"In their turn we welcome the efforts of the other partners in the Empire made with similar objects. We are satisfied that in providing for their own security they are contributing also to the stability of the world because no one doubts the sincerity of any of us when we declare that never will our forces be used for aggression or for any purpose which is inconsistent with the covenant of the League."

#### CHIEF RESULTS

LONDON—Outstanding results of the Imperial Conference as seen by the Canadian delegation were:

Trade—Emphatic desire was expressed by all delegations all practical steps should be taken to secure stimulation of international trade.

Foreign affairs—No attempt was made at the conference to formulate commitments, which in any event could not be made effective until approved and confirmed by the respective parliaments. It was found, however, the governments concerned were in close agreement on a number of general propositions, including the preservation of peace as the first objective of national policy and the principle that armaments of Commonwealth nations would never be used for purposes of aggression or for any purpose inconsistent with the Kellogg Pact and the covenant of the League of Nations.

#### PACIFIC PACT

It was agreed if a pact on non-aggression by the countries of the Pacific could be brought about it would be a desirable contribution to the cause of peace and that to this end it should be a subject of further consultation between the governments concerned.

The conference recognized it was the sole responsibility of the several parliaments of the Commonwealth to decide the nature and scope of their own defence policies.

### Harrison P. Eddy Dies in Montreal

MONTREAL—On the eve of recognition by the Engineering Institute of Canada for his contribution to the engineering profession, Harrison P. Eddy, 67, of Worcester, Mass., died suddenly in his hotel here today.

Mr. Eddy came to Montreal Monday for the annual convention of the Canadian Institute, which had planned to make him an honorary life member. For several days he had been suffering from a heart ailment.

Mr. Eddy, a native of Millbury, Mass., was recognized as an outstanding authority on sewage disposal.

## Doukhobors In Demonstration

Woman Convicted at Nelson; Another Called Before Magistrate

NELSON, B.C.—Tania Resantsoff, one of two Doukhobor women arrested and charged with creating a disturbance when their leader, Peter Verigin, started to serve a three-month sentence in Nelson jail for vagrancy, was convicted in police court late Monday.

Magistrate William Brown reserved sentence on the 44-year-old woman from Shoreacres, Doukhobor settlement near here. The other woman charged, Nastia Strelaieff, 52, also of Shoreacres, was scheduled to appear in police court today.

Police arrested the pair when the women screamed and threw themselves on the ground in front of the jail where Verigin began his sentence after losing an appeal.

One of the arrested women tried to tear off her clothes in the adjoining provincial jail yard, but was restrained by officers. Both threw themselves to the pavement in front of the courthouse, screaming "You've got our god in jail; take us too!"

yet started this year, and the Japanese vessels in the Bristol Bay area are engaged in crab catching operations and are not injuring the salmon run."

#### AT FIRST HAND

The State Department asserted, however, that in line with plans made weeks ago it would send one of its officers, along with officials of the Bureau of Fisheries, to the Pacific coast and Alaskan waters "for the purpose of studying the situation at first hand."

It was said the department agent, who has not yet been designated, probably would be on his way within the next two weeks.

The United States embassy at Tokyo has reported it was informed by the Japanese Foreign Office that "no license has been issued for salmon fishing in Bering Sea, and Japanese vessels reported to be operating near Alaska are presumably engaged in crab fishing."

OTTAWA HEARS—Canadian authorities have had no complaints of Japanese fishing vessels operating in the Pacific Ocean outside Canadian territorial waters, but have heard of Japanese vessels operating near Alaskan waters.

France, said that during the night government artillery started a heavy bombardment of insurgent positions. While the shelling was at its height, long lines of automobiles sped out of Bilbao and along the Biscay coast carrying refugees toward Santander.

Many women, old men and wounded fled from the city which they had refused to leave when insurgents first started their drive against the Basques early in April. Thousands of children have been evacuated by sea.

An insurgent communique estimated Basque casualties in the last four days at about 6,000.

The staff of the French consulate at Bilbao was taken to France on the destroyer Audacieuse, which arrived at St. Jean de Luz, France, at about the same time three French freighters attempting to enter the Basque port were turned back by the insurgent bombardment.

#### BRITISH CONSUL SAFE

SAINT JEAN DE LUZ, France.—A landing party of British sailors rescued the British consul, R. C. Stevenson, from Bilbao under a hail of fire today.

The sailors, with bullets whistling all about them, landed from a warship outside the besieged Basque capital, escorted the consul aboard and brought him to this French port.

British officials made it plain they did not consider the landing party was under direct attack, but, instead, was caught in the line of general fire between Bilbao defenders and advancing insurgent armies.

None was injured. Mr. Stevenson was reported to have been the last Englishman in Bilbao. His staff and other British nationals were evacuated long ago.

Mrs. Alice McDonnell Parsons vanished shortly before noon and a note, demanding \$25,000, was found tucked in front of the Parson's car hours later at the trim white farmhouse where Mrs. Parsons and her husband, William H. Parsons, Yale graduate and retired New York businessman, lived quietly raising chickens and pigeons.

A search of the wooded area on and around the Parsons's 22-acre estate, was renewed today. Overnight a fresh contingent of federal agents arrived, bringing to about 50 the number seeking

## C.P.R. To Speed Up Summer Sailings

Faster Coast Schedule Effective June 28; Extra Victoria-Seattle Link

Faster service on the triangle run will become effective on Monday, June 28, with the inauguration of the new summer schedule of the Canadian Pacific's speedy turbines Princess Kathleen and Princess Marguerite.

From June 28 to September 7 the schedule will be as follows: Princess Marguerite, leave Vancouver 10.30 a.m. daily; arrive Victoria 2.40 p.m.; leave Victoria 5 p.m.; arrive Seattle 9 p.m. Princess Kathleen, leave Seattle 9 a.m.; arrive Victoria 12.50 p.m.; leave Victoria 1.45 p.m.; arrive Vancouver 5.55 p.m.

The schedule, faster in running time on the Vancouver-Victoria and Victoria-Seattle legs of the run provides more time for sightseeing by tourists in Victoria.

Arrival in Vancouver from Victoria at 5.55 p.m., gives ample time for connection with the C.P.R.'s leading eastbound transcontinental trains from Vancouver, the Mountaineer for Chicago at 6.35 p.m.; No. 4, coach-tourist train, for Toronto and Montreal at 7.15 p.m.; No. 8, all-sleeping car train for Montreal, at 7.35 p.m., and the Kettle Valley train at 8.15 p.m.

Another important link for tourists and motorists travelling between the Washington mainland and Vancouver Island will be forged by the Canadian Pacific's B.C. Coast Service June 26, when the two Victoria-Vancouver night steamers Princess Elizabeth and Princess Joan will start a new daily service between Victoria and Seattle.

Effective on Saturday, June 26, the special Victoria-Seattle service by the Elizabeth and Joan will be as follows: Leave Victoria 11 a.m.; arrive Seattle 4 p.m.; leave Seattle 4.45 p.m.; arrive Victoria 9.45 p.m.

These boats will continue their Victoria-Vancouver night sailings, but the additional service to Seattle will be of great convenience, particularly to motorists.

The ships can accommodate about sixty automobiles on a single trip.

## HEAD-HUNTER IS CAPTURED

Police Sergeant Ends Murder Trail of Kayinga Boli in Philippines

MANILA—A fearless Philippine constabulary sergeant who sought to avenge his sister's murder by her mad head hunter husband was credited today with capturing the slayer of thirteen persons.

Dispatches from Abulug, in the wilds of northern Luzon, told how Sgt. Pit Pilit ended the terror reign of Kalinga Boli last Thursday by trapping him in a cave, dodging the tribesman's arrows and finally bludgeoning him with a rifle butt.

Boli was jailed at Kabugao, awaiting removal to the provincial capital at Tuguearao, where authorities said he would be tried for killing 13 of the 24 persons before he would surrender. He went berserk with his terrifying head axe three weeks ago.

In the belief his wife had been unfaithful, Boli killed her first. Then vowing to slaughter 24 persons before he would surrender, he gathered a small band of followers and fled into the jungle, appearing from time to time and adding new victims of his bloody trail.

### THREATS INVESTIGATED

HAMILTON, Ont.—Police today were investigating the gravity of threats against members of the Ukrainian Farmers' Labor League Association here. "We will get all of you one by one," read a sign plastered across the window of the association's quarters a couple of days ago. "Keep away, all you followers of Stalin will receive the same treatment," read another. They were written on wrapping paper.

Many noted artists, members of the Royal Academy of England and other such institutions, used their talents to design and decorate Christmas cards from the years 1878 to 1888. A single collection of such cards sold for \$10,000 in 1884.

## Around the Docks

Loaded down to the plimsoll marks, the Blue Funnel liner Tyndareus, Capt. W. B. Ewan, which berthed at the Rithet Docks last night from the Orient, had stowed away in her various holds 15,000 tons of cargo.

One of the big shipments was 4,000 tons of rice from India, transhipped at Hongkong, and destined for Seattle. The silk shipment amounted to 290 bales and another special consignment was two ship's tanks of soya bean oil.

In her steerage quarters the Tyndareus carried Chinese, including twelve for Victoria, twelve for Seattle and sixty-one for Vancouver. The mail shipment landed here amounted to 166 bags. The Tyndareus sailed at 11.30 p.m. for Vancouver.

### GREGALIA'S CARGO

Ss. Gregalia of the Donaldson Line is expected back in Victoria to load a consignment of lumber at Ogden Point docks for the homeward trip to the United Kingdom.

On her inbound voyage the Gregalia last Wednesday brought in a total of 8,000 cases of Scotch whisky for British Columbia, Alberta and the Yukon, it is announced by the agents, and not between 12,000 and 18,000 cases as previous reported.

The figures for height serve to distinguish high water from low water. Where blanks occur in the table, the tide rises or falls continuously during three of the usual tidal periods.

The height is in feet and tenths of a foot, measured from the average level of lower low water.

## Planes Meet German Liners

BERLIN—Fourteen passenger airplanes were put into operation on the fast air mail line linking Cologne with Cherbourg today, cutting the journey from Cologne to New York and vice-versa to five days.

The service is timed with the departures and arrivals of the German steamships Bremen and Europa. Until today the planes carried only mail.

## DOWN THE GANGWAY

Capt. W. B. Ewan new commander aboard Tyndareus—H. Oakley gets chief engineer's berth—J. A. Thomson, Dodwell director, and Capt. T. B. J. Clarke of Ulster Rifles, passengers aboard Blue Funnel liner—S.S. Prince Rupert goes north with large cruise list—R. G. McNeillie new C.P.R. passenger traffic manager.

With a new captain on the bridge, Ss. Tyndareus, of the Blue Funnel Line, made port at 7.30 last night after a 14-day passage from Yokohama.

Capt. W. B. Ewan, formerly of the Lycaon, plying in the United Kingdom-Orient service, succeeds Capt. F. H. Holmes as master of the Tyndareus. He will spend the next year in the trans-Pacific service. It is the custom of the company to switch its officers periodically to give them an opportunity to transfer to ships on the home route.

Capt. Ewan transferred to the Tyndareus at Daifan and Capt. Holmes went to Hongkong to take over the Lycaon for the homeward run to Liverpool.

Chief Engineer H. Oakley is also a newcomer to the Tyndareus this trip. He was previously in charge of the engine-room of the Aeneas and came out from England on the Calchas to put in a spell on the Pacific.

He succeeds Chief Engineer Martin on the Tyndareus.

Two first class passengers occupied cabins on the bridge deck of the Tyndareus. They were J. A. Thomson, director of Dodwell and Company, Pacific Coast agents for the Blue Funnel Line, who for the last two years has been traveling across the Pacific with land trips to New York; and Capt. T. B. J. Clarke of the Ulster Rifles, stationed at Hongkong, who came to this coast for a vacation. He plans to fish in Vancouver Island waters and will cruise to northern British Columbia.

Carrying a capacity passenger list, the Ss. Prince Rupert of the Canadian National fleet, sailed from Vancouver last night on her summer schedule to northern B.C. and Alaska.

Among her passengers are the Hon. George A. White and Mrs. White of Marietta, Ohio. Mr. White is immediate past governor of the state of Ohio. From Skagway he plans to go into the northern interior, making the Yukon River circle tour.

There was one tour party aboard, the H. B. Langheldt Southern Pacific Club group with 58 passengers. The balance of the list was made up of people

### SUCCEEDS FOSTER

R. G. McNeillie, C.P.R. assistant passenger traffic manager, Montreal, will succeed C. B. Foster as passenger traffic manager, July 1, it is announced by George Stephen, traffic vice-president.

Mr. Foster announced his retirement when he was in Victoria April 18. He has seen 46 years of service with the C.P.R.

### Newcastle Island Resort Opening

VANCOUVER — Opening for the summer season, Saturday, June 26, when the summer schedule between Vancouver and the Nanaimo harbor resort goes into effect, Newcastle Island will be the scene of many large picnic parties from Vancouver and the lower mainland district.

A pre-season picnic, however, is that of Malkin's Old Guard Association, several hundred strong, who will leave Pier D at 9.15 a.m. Saturday, June 19.

For the opening day, June 26, the American Can Company's employees have chosen the island for their annual outing, leaving at 9.15 a.m. on the first sailing of the new summer schedule.

Other large parties include the

Air-cooled Trains to CALIFORNIA

BIGGEST BOON to pleasant travel is air-conditioning. All cars regularly assigned our trains have this weather-controlling equipment. This means, that no matter what type of accommodations you choose—coach, tourist or first class—you'll ride in cool, clean comfort when you go by train. Car temperatures are automatically regulated at just the right degree. Dust and dirt are eliminated. Noise is deadened. Next time you go to California, travel the cool way! There's no need to go less comfortably when rail fares are so low. For example:

TELLS GYROS  
MALAY TALES

Rev. G. R. V. Bolster Entertains With Anecdotes of Orient

Rev. G. R. V. Bolster of St. John's Anglican Church who was formerly in the Malayan police force gave the Gyro Club some anecdotes of his life in the Orient at a luncheon meeting in the Empress Hotel yesterday afternoon.

When he was investigating illegal stills in Malaya he told how he came upon some recently broken-up ground in the home of a suspect. He knew that a favorite trick of the native was to put the liquor in earthenware jars and conceal them. He ordered the ground dug up and they came upon an earthenware jar.

The jar, however, did not contain liquor but the recent remains of a human being. Mr. Bolster was intrigued because he felt he had a murder on his hands. He arrested the loudly protesting Chinaman.

The next day the Chinaman was brought before an interpreter in his police court. He said he watched the interpreter's face as the Chinaman explained his case, and a broad grin covered it. The interpreter said the human remains were those of the Chinaman's father who, like all good Chinese, wanted to be buried in China, and were being saved until the son could make the trip.

One time he was playing golf in Malaya when his opponent drove his ball into the rough. He watched his opponent take his shot and then collapse. Mr. Bolster related. He hurried over and found a huge snake coiled under the crumpled form of his friend.

With a club he pulled the snake out. It was a twelve-foot cobra but without a head. As he was taking his shot, his opponent had

evidently seen the cobra raise its head and, by some miracle, had directed his stroke at the snake, cutting his head off as clean as a razor. Then he had fainted.

Another occasion Mr. Bolster said he was stationed up-country. For three months he had not seen a white man and when his servant told him a Mr. O'Hara would like to see him, he was delighted. When he met Mr. O'Hara he found he was an Eurasian, as black as the ace of spades.

William Hudson introduced the speaker, and Everett Taylor, who was in the chair, tendered the club's thanks.

(From The Times Files)

A modern four-story hotel is to be erected by Max Leiser on the site of the Klondyke Hotel at the corner of Blanshard and Johnson Streets which will be a handsome addition to the structures on Johnson Street. The building will contain thirty-five rooms and will be constructed of pressed brick and terra cotta.

After sitting for five days over the Stedham damage suit Chief Justice Hunter yesterday afternoon delivered an oral judgment dismissing the action for damages and also dismissing the claim of the city for a return of the sum of \$4,900 paid Stedham on progress payments for the work done on the reservoir.

The city engineer drew the attention of the streets committee yesterday to the poles which will be projecting in the street line on Hillside Avenue when the street is widened and asked authority to set them back to the new curb line. The cost would be about \$750. If the owners cannot be charged with the cost of the work under the by-law the city will undertake the work.

LONDON — While Premier Asquith was holding an official reception in the India Office last night in honor of the King's birthday, an elegantly attired suffragette, who had been announced as a guest, approached and tried to tear the epaulettes off the Premier's official coat. Mrs. Asquith tried to rescue her husband from the unwelcome attentions of the woman and then an usher dragged the suffragette away from the Premier.

Veterans' Club  
Activities

A-Cpl. G. A. Atherton, C.E., is advised that a war medal with his name inscribed on it and numbered 500601, was found near Elk Lake and he can, upon proving his identity, claim it at the Britannia Branch.

Three meetings are listed by the Army and Navy Veterans in Canada this week. They are: Tuesday night, finance at 7.30 o'clock and executive at 8 o'clock. Thursday night, general meeting at 8 o'clock. A good attendance is being looked for at the general meeting as a number of important items will be brought up, such as the annual picnic, beneficiary and next-of-kin funds.

The Naval Veterans Branch, Canadian Legion, will hold its general meeting on Friday evening at 8 o'clock. Members are asked to be in attendance.

At the Britannia Branch Canadian Legion, tonight there will be a meeting of the executive at 7.30 o'clock.

Annual Events Seen By Large Crowd; Yvonne Lowden Senior Champion

Keen competition and good sportsmanship marked the annual sports of St. Margaret's School, held on Saturday afternoon before a large crowd of parents, friends and former pupils of the school.

Miss M. Barton, principal of the school, welcomed the visitors and presided at a tea in the dining-room and common room.

Yvonne Lowden carried off the senior championship, with Barbara Leigh as runner-up. The intermediate championship went to Agatha McGivern and Louise Preston in a perfect tie, with Sheila Williams second. Rosalind Wilkinson was awarded the junior honors, with Joan Macdonald running up.

The inter-house cup was won by Christian House, with eighty points. Malcolm House was second with forty-nine, and Canmore a close third with forty-eight.

Short addresses were made by F. E. Winslow and W. N. Buyers during the prize-giving, congratulating the winners.

Kindergarten pupils also took part in races. Each received a prize.

## Japanese Dances At Dance Revue

"In a Japanese Garden" is one of the ensembles offered on the programme of the Florence Clough Dance Revue to be given at the Royal Theatre on Friday, June 18. In this number Japanese girls in exquisite kimonos gracefully swaying and with fluttering lotus-like hands, will delight in three dances of which the motifs are purely Japanese — the fan, the parasol and the cherry blossom.

The adjudicator at the last Victoria musical festival after viewing these dancers in a folk dance, said he had never seen more grace than in these dancers "with their expressionless faces and their most expressive hands and bodies."

The last dance depicts a scene which ever pleases western eyes. The stage is beautiful with a number of small Japanese cherry trees, set with imitation blossoms. Branches are plucked from the trees by the dancers and the blossoms shed from the boughs create a beautiful spring scene in Japan.

## Nurse Bride At Pretty Wedding

Mould—Abbott Nuptials at St. Barnabas Church

St. Barnabas Church was beautifully decorated with summer flowers for the wedding last night of Miss Winifred Florence Abbott, R.N., second daughter of Mr. and Mrs. A. J. Abbott, 5140 Foul Bay Road, and Mr. Frederick George Mould, only son of Mr. and Mrs. W. F. Mould, 755 Selkirk Avenue. Archdeacon Nunns conducted the ceremony, assisted by Rev. N. E. Smith. Dr. J. E. Watson presided at the organ.

Given in marriage by her father, the bride was charming in a gown of ivory satin, the yoke of satin appliqued with lace, with puff sleeves of lace finished with long tight cuffs, the skirt extending into a short train. Her full-length veil fell from a coronet of orange blossoms on one side, and she carried a bouquet of pink roses, white carnations, sweet peas and forget-me-nots showered with swansonia.

Mrs. Harry Brain, Calgary, was matron of honor in a peach-shaded silk frock and a small white flower-trimmed hat and circular veil, and carried a sheaf of suntan snapdragons and blue delphiniums. Mr. Alec Anderson was best man, and Mr. Cedric Jervis Read and Mr. Cyril Barker ushered the guests to their pews, which were marked with posies of flowers tied with white satin bows.

At the reception held at the home of the bride's parents, the young couple stood in an alcove arranged with roses, carnations and ferns and white satin ribbons. A buffet supper was served, and the bride's cake stood on a small table covered with a lace cloth, between tall pink tapers in silver candlesticks and tiny silver vases of rosebuds. Archdeacon Nunns proposed the toast to the bride. During the reception, Mrs. Kemsley sang "O Promise Me" and "At Dawning," accompanied by Mrs. Percy Fairbairn.

Mrs. Abbott wore a royal blue lace gown and a matching hat, and Mrs. Mould a Coronation blue silk suit, and they both had corsage bouquets of roses and sweet peas. Mrs. Hugh Devereaux, Misses Margaret Smith, May Moore and Florence Newburn, who were responsible for the decorations in the church and house, also assisted in serving the guests.

Mr. and Mrs. Mould have left by motor for Sprout Lake, the bride traveling in a slate grey sports suit, with a pink blouse and a blue hat trimmed with pink, and blue accessories. They will make their home in Esquimalt.

Among the many gifts was a walnut smoking stand from the bridegroom's associates at the National Motor Company Ltd. The bride's aunt, Mrs. W. P. Beavan, Nanaimo, was a guest at the wedding.

## New School Programme Outlined

The changes in the school programme, for both public and high schools, had been devised with the view to promoting the mental, physical and social health of the children, Dr. H. B. King of the Department of Education, told the Local Council of Women yesterday afternoon.

After reviewing in detail some of the proposed changes in the curriculum, Dr. King pointed out that the aim of education is to teach children what they are going to need for effective living, to play their proper part in a democratic society, to produce people who are critically-minded and ask for facts. The revision in the school programme had been designed to this end and, in the high school studies, for instance, some of the non-functional and obsolete material had been eliminated, and a "surgical operation performed" on certain parts of the physics and science courses.

In every subject the changes made were intended not merely to assist the student in the building up of factual knowledge, but to acquire improved attitudes and ideals and behavior, he declared. There had been criticism of the changes, but much of this came from communities where schools had been neglected in the matter of educational material. The new programmes of studies had proved very successful, despite the lack of equipment in some places, and had "given zeal to young teachers and rejuvenated the older ones."

Dr. King, who was introduced by Dr. Olga Jardine, the president, was thanked by Mrs. Wm. Grant. At the close he answered a number of questions, including one relating to homework, which he said would be reduced as soon as the necessary adjustment of studies were made.

The council chose a number of accredited observers to the Pan-Pacific conference in Vancouver, including Dr. Jardine, Mrs. Alan Campbell, Mrs. J. W. Gibson, Mrs. A. C. Ross and Mrs. J. L. White. Mrs. Hugh Mackenzie reported on the negotiations for the preservation of Cathedral Grove. Mrs. C. C. Spofford's interesting letter as the new provincial president was read.

Mrs. Fleming reported the success of the recent bridge tea for the funds of the Pan-Pacific conference, and Mrs. Bertha Parsons was warmly thanked for her success in convening it.

## Weddings

**NEWELL—MOULE**  
 In the manse of the Metropolitan United Church on Saturday evening at 8 o'clock, Rev. E. F. Church united in marriage Margaret Patricia, eldest daughter of Mrs. P. Erikson, of Malakwa, B.C., and the late Mr. F. S. Moule, second son of Mr. and Mrs. S. F. Newell of 1203 Whittaker Street.

The bride, who was given in marriage by her sister, Miss Louise Moule of Victoria, wore a grey traveling suit and corsage of pink rosebuds. Miss Kathleen Fitz-Gerald of Colwood, attended the bride, while Mr. Donald Newell was groomsmen. After the ceremony a reception was held at the home of the groom's parents. After a short trip up island, the newly married couple will make their home in Victoria.

**POTTS—PETERSON**  
 At a quiet wedding performed by Rev. E. F. Church at the Metropolitan Church parsonage, Johnson Street, on Friday evening, the nuptials were solemnized by Miss Olga Mary Peterson, of Red Deer, Alta., and Mr. Robert Henry Potts, of Victoria.

The bride, who is the only daughter of Mr. and Mrs. J. C. Peterson of Red Deer, was prettily gowned in peach georgette, with a cream hat, and carried a bouquet of roses. Her only bridesmaid was Miss Lynn Piercy, wearing an aqua blue georgette frock, with a bandeau of flowers in her hair, and carrying a bouquet of yellow snapdragons and gladioli. Mr. Thomas Doswell was best man. After the ceremony a reception was held at the Hotel Douglas, and Mr. and Mrs. Potts left later for a honeymoon on the mainland, the bride traveling in a white sports suit, with a coral jigger topcoat, and a white hat and accessories. On their return they will make their home in Victoria.

# WHY BOTHER WITH IMITATIONS?

For more than 70 years Eno's "Fruit Salt" has been bringing health to millions of people. Its popularity and use is universal—the world knows and appreciates Eno. Naturally, there have been imitations. Some of these imitations are undoubtedly harmful in their effects, others have no effect at all. Play safe—make sure you get Eno's "Fruit Salt"—no substitute can take its place—it is a small price to pay for good health.

Eno's "Fruit Salt" is pleasant to take and gives just that assistance which nature needs. There is nothing harsh or harmful in its composition. It is not habit-forming. Get a bottle of Eno today and take a sparkling glass every morning. You'll quickly find that no imitation can do for you what Eno can do.

### Music Asset To Public Weal

Sir Ernest MacMillan Tells Musical Art at Reception

Musical organizations fill a definite place in the community and are as deserving of support as a public library or an art gallery. Sir Ernest MacMillan, F.R.C.M., F.R.C.O., principal of the Toronto Conservatory of Music told members of the Victoria Musical Art Society on Saturday afternoon.

He was speaking at the reception given in his honor by the society at the home of Mr. and Mrs. Gordon Cameron, Runnymede Avenue, and his subject was "Present-day Attitudes to Music." Reference was made to the effect of the radio upon musical tastes, Sir Ernest declaring that "while the broadcasting stations will tell you that popular music is in demand, it is, nevertheless, a fact that many organizations with a national business, sponsor the better type of music,

such as symphony concerts."

People, as a whole, were more critical of the mediocre in music today and listened with more intelligence than a few years ago. But mechanical music, either from a radio or a gramophone, was no substitute for living music in the home, he claimed, and urged that young musicians be encouraged to go through the tuition and routine which is essential to all successful musicians.

The suggestion was made that, if musicians and composers were to be developed in Canada, steps should be taken to encourage the work of the younger people. Teachers should be thoroughly trained, so that students did not have to depend for tuition only upon those who "fall back upon

the profession in disappointment, only when they have failed as performers."

Sir Ernest also advocated the need of music study in the schools. "It is worth while to everyone," he maintained, "for it opens up a great literature that tends to bind nations together. It is a good discipline, tending to co-ordinate mind and body; it is related closely to history; to mathematics and to physics, and it is a safe and admirable outlet for developing lives of adolescents. It means increased happiness in later life, for it is an admirable hobby."

The speaker was introduced and thanked on behalf of the society by Mrs. Allan Peebles, president, who also extended thanks to Mr. and Mrs. Cameron for the loan of their home.

Those in charge of arrangements were Mrs. R. D. McCaw, Miss Dorothy Parsons and Dudley Wickert. During the afternoon, tea was served by junior members of the organization.

**NEW WESTMINSTER**—Mrs. Jane H. Taylor, sixty-eight-year-old wife of Senator J. D. Taylor, owner and publisher of The New Westminister British Columbian, died at her home here yesterday after a long illness.

Mrs. Taylor was born in Frampton, Que., the daughter of Rev. and Mrs. J. H. Jenkins, and was married to Senator Taylor in 1897. Her husband was at that time a member of the editorial staff of The Victoria Colonist.

Senator and Mrs. Taylor moved here in 1900 when Mr. Taylor took over direction of The Columbian.

Besides her husband, Mrs. Taylor is survived by a son, Cecil

## TAKE THE HEAT ON HIGH (or Keep In High Gear This Summer)

WHEN the heat comes, some people, like old cars, can't make the grade—they have to slip into "second" or into "low". The heat slows them, saps their "horsepower". Why can't a youngster of almost 80, who, judged by conventional standards, should be on the scrap heap, drive in high through the hottest summer, defying Mr. Sol, just as in winter I scorn Mr. Zero? The answer is in the foods they eat. They follow the herd. Herd intelligence is notably no intelligence at all.

If people would really think, they would realize that bodily health depends upon the blood that feeds the body cells. The blood depends upon the kind of foods which build the blood. Therefore the kind of blood that flows through our bodies can make us shrivel and wither on cold days and wilt and wither on hot days. The cause of both is vicious, rosy, toxic blood, derived from denatured, dead, demineralized, constipating foods.

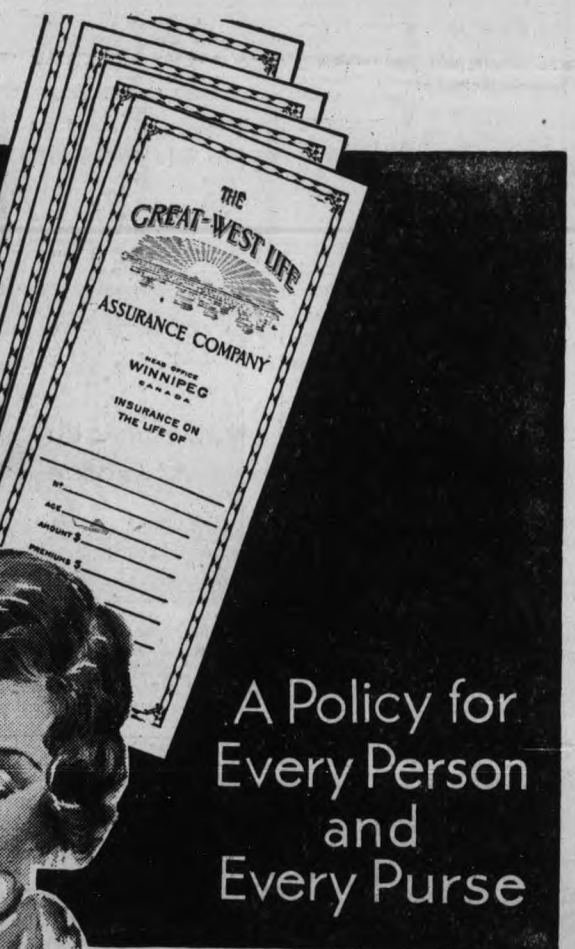

Here is how to prove me right or wrong. During the hot spell, make your breakfast of Roman Meal, Bekus-Puddy or Lishus, all you can enjoy with milk or cream, raisins or chopped dates, not body-heating sugar. Make thick enough to chew thoroughly. If hot cereal is not liked, cook any of them the previous night, allow to cool, place in refrigerator and serve for breakfast, with sliced or canned peaches, ripe bananas, fruit jelly, preserve, or honey with cream or milk. Drink iced Kofy-Sub, sweetened with brown sugar, or preferably honey, added while hot, a very delightful and healthful beverage. For noon meal a salad of fresh fruit or raw vegetables, iced Kofy-Sub. For evening meal, a large fruit or vegetable salad, sprinkled with grated nuts, or cold cheese or cottage cheese, or lightly steamed vegetables, as second choice. Any kind of juicy fruit for dessert. Iced Kofy-Sub or hot Kofy-Sub if hot drink is preferred.

Train the intestines to eliminate after each meal. It is of utmost importance to exercise all groups of muscles briskly, fifteen or twenty minutes daily, to the point of deep breathing, to burn up internal poisonous waste. If you do not know how, send fifty cents for my book "SYSTEMATIZED

MUSCLE EXERCISES", illustrated. Rub the body down with rough towel wrung out of hot water in cold weather; cold water in cold weather. Relax muscles, nerves and mind. Do not fret or worry and—well, I stake my reputation on this assertion:—follow this program for one month, or at most two, and so remarkable will be your improvement, you will always follow it. Write for University proof that Roman Meal, Bekus-Puddy, Lishus and Kofy-Sub are wonderfully rich in blood-forming minerals, also other important health literature free. Address: Robt. G. Jackson, M.D., 577 Vine Ave., Toronto.

Power production in the United States during the year 1936 exceeded the 100,000,000,000 mark for the first time in history.

There are 800 theatres in New York City. Of these, 252 are legitimate theatres, the balance movie houses.

## Anniversary Of Island Church

St. Peter's, Quamichan, Opened Sixty Years Ago On Monday

DUNCAN—The sixtieth anniversary of St. Peter's Church, Quamichan, and the seventieth anniversary of the log church which preceded it on the same site, was celebrated Monday.

The church was built in 1877, situated on a hill above the Cowichan River. It was surrounded by trees, and in the spring by masses of Easter lilies, snooting stars, chocolate lilies and white and yellow variegated broom.

In the church yard, just in front of the south door stands a unique monument to those of the parish who gave their lives in the Great War. This is a large rock about seven feet high, and eight feet across. A cross is placed on top, and in front there is a brass plate with all the names inscribed on it.

The first incumbent of St. Peter's was Rev. H. Reese, sent by Rt. Rev. T. Hills, Bishop of Columbia. Others have included Rev. F. Holmes, Canon A. Leakey, who served there for 28 years, Rev. F. L. Stephenson now at Victoria West; Archdeacon H. A. Collison, Rev. H. F. Napier and at present Rev. T. M. Hughes.

A special service was held on Sunday evening when Rev. H. F. Napier, rural dean of Nanaimo, gave an inspiring address to the congregation. Communion services were held on Monday, Rev. T. Hughes officiating.

Garden Leader Of U.S. Succumbs

WASHINGTON—Charles La-throp Pack, eighty, remembered by many as the man who told

them to help win the Great War by planting gardens, died Monday in New York.

He founded the American Tree Association and served as president until his death.

As head of the war-time movement to plant gardens, Pack wrote the War Garden Primer and conducted a publicity campaign which was estimated to have inspired 3,000,000 new gardeners.

## Charlton Eleven Turns In Smart Exhibition

### Sports Mirror

By PETE SALLAWAY

SIDES have been taken and arguments resulted over the recent flare-up between Dizzy Dean, leading pitcher of the St. Louis Cardinals, and Ford Frick, president of the National Baseball League. The Sporting News, leading publication on baseball, comments on the case as follows:

"Although opinion is divided as to the wisdom of many of the moves made by all parties concerned in the famous Dizzy Dean case of last week, none will deny that President Ford Frick of the National League, took the sensible course when he lifted the suspension of the St. Louis Cardinal pitcher. He thus put an end to this particular controversy, which was getting nowhere fast and was threatening to involve everyone in an ugly mess, from which they would have found it difficult to extricate themselves. The fact remains, however, that Dizzy should have learned a lesson from the entire procedure and should realize that while looseness of the pitching arm is desirable, looseness of the tongue creates its own handicaps.

"A pitcher of Dean's ability should not find it necessary to resort to 'popping-off' tactics, either to attract attention to himself or to alibi any defeats he may have suffered. That route usually is taken by one who is trying to cover up his own deficiencies, through shifting the blame to someone else; or by the publicity seeker who is unable to draw the limelight except through some sensational statement or deed. Dizzy doesn't need to resort to these expedients. Everybody who knows anything at all of baseball, knows of Dizzy Dean. His pitching record speaks for itself. He should continue to let that record, rather than his tongue, do the advertising and the talking for him.

"Many excuses have been made for Dizzy and numerous undiplomatic, even uncouth, things which he has said and done have been overlooked. But there is a limit, beyond which no one should be permitted to go; and if, as reported, he cast aspersions on the sport's officials, he was not only creating suspicion about them, but about the game itself, from which he earns his bread and butter—and rich butter, at that. Should such suspicion develop into belief among a large portion of the populace, Dean would find himself back in Florida, or wherever it is that he threatens to return if everybody doesn't meet his fancy, minus the fat cheques that have been coming to him regularly on the first and fifteenth of each month. And many of his fellow-players would find themselves in the same predicament.

"No fault can be found with Dizzy as a player. On the diamond, he cuts a fine figure, but he sometimes makes himself look ridiculous off the field. He has a million-dollar arm, but it is suspected that his judgment does not rate as highly. For that reason, some of his pranks have been and must be overlooked, but even the most irrepressible juvenile spirit must be curbed when rocks hit windows.

"Dean's place is on the mound, not on the public rostrum, or the soap box. If he ever learns that lesson, Jerome Herman will be worth more, both to himself and to the game, and will improve his own prospects of going down in history as one of the sport's greatest pitchers."

### Nanaimo Golfers Win Dickie Cup

DUNCAN — Playing at Duncan on Sunday in the second half of the Dickie Cup golf match, Nanaimo won the cup for the year by the narrow margin of three points. In the first match, played at Nanaimo, Cowichan scored 21½ points and Nanaimo 38½ points, and on Sunday Cowichan annexed 37 points to Nanaimo's 23 points.

## Touring Players Defeat Victoria By 4 to 0 Score

Don Welsh, Centre-forward, Leads Visitors' Attack With Three Goals

### Locals Play Well

Featuring brilliant positional play, smart footwork and real polished combination, Charlton Athletic, members of the English Football League first division, blanked Victoria All-stars 4 to 0 in an exhibition match at the Athletic Park yesterday evening before a crowd of 3,000. It was one of the biggest attendances in the history of local soccer, and the fans saw an exhibition typical of English football.

Premier T. D. Pattullo performed the opening ceremony, kicking off the ball.

Outstanding in the exhibition of the visitors were the two wingers, Len Williams and Monty Wilkinson, Harold Hobbs, inside left, and Sam Bartram, goalie. Wilkinson, especially, was in the limelight all evening. Able to turn on a dime and quick as a flash, he had the Victoria backs and halves in trouble whenever in possession of the ball. His performance was worth the price of admission. Bartram packs all the color in the world, including his red hair, and has the knack of making every save look good.

### GREAT DEFENCE

Another interesting point of the Charlton play was their block defence. Jack Oakes, centre-half, never took part in an offensive play all evening. He was continually on top of Eddie DeCosta, young Victoria centre-forward, and played his position like a third fullback. That is the usual Charlton system, and is used in their league matches.

Don Welsh, chunky centre-forward, contributed three of Charlton's goals, with Wilkinson getting the fourth. All the counters came as the result of crosses from the wings.

The score was 1 to 0 at half time, with Welsh snaring his three markers in the final 45 minutes.

Although shut out, the Victoria team was unlucky in not scoring. On three or four occasions Eddie DeCosta, who turned in a great bustling performance, smashed his way through only to be checked off his shot. On one occasion DeCosta crashed the ball against the crossbar with Bartram beaten all the way.

### LEGGETT IS GOOD

The Victoria halves and backs played well, with George Leggett taking a leading role. His kicking and heading had a great deal to do with holding Charlton scoreless for 42 minutes of the first half. Louis DeCosta, in the Victoria goal, had a busy 90 minutes, and although four shots beat him he pulled off some grand saves and more than once drew a big hand from the customers.

Early in the match DeCosta made a fast block and clearance on a dangerous corner kick by Williams which was curling into the corner of the net. Bartram was forced to show his ability on a snap shot by Peers that appeared ticketed for the corner. After holding out the visitors for practically the entire half, Charlton broke into the score column at the 42-minute mark when Williams crossed beautifully from the left wing and Wilkinson sped in to head the ball past DeCosta.

A three-man combination play gave Charlton their second goal three minutes after play resumed. Wilkinson centred from the right wing to Williams, and the outside left returned to Welsh, who tapped the ball into the net from the baby-line.

Charlton dominated the play (Turn to page 13, Col. C.)

### SOCCER SHOTS

By A. S.

When Charlton's happy warriors left the English soccer battlefield for their tour of the United States and Canada, they thought they were going on a holiday, according to Bert Tann, one of their stalwarts. "But nearly all the teams have been much stronger than we expected, and we've had to work in every game," he explained to boys in the press box last night. The Englishmen blame rival goalkeepers for a lot of their trouble. "Most of them were basketball players and could catch any kind of a ball," Tann explained.

He figured the Athletic Park pitch much better than most of the grounds in the United States on which the team played. But it was too bumpy for the visitors to hit their top speed and retain ball control, he said.

When the crowd yelled at heavy bodying by Charlton, Tann explained that was the usual practice in English soccer. It looked bad, because the Victorians did not set themselves for the check, and were taken off balance, he said.

All English league teams are using the three-man defence now, with the centre half staying back with the fullbacks, according to Tann. The offensive passing, from the inside forward to the opposite wing, is the most popular attacking play.

That novel throw-in by Charlton from the side-line to the goalie for clearance, is also an orthodox play in the English league. The defending backs jockey attacking forwards up the field and leave the net-minder clear for the catch and kick.

The visiting forwards gave a neat display of that finesse which makes first-class footballers, as they scored their second goal. Instead of trying to head in Wilkinson's cross to the corner of the net, Williams headed back to Welsh's feet for a perfect set-up. The average player would have tried to score himself.

Top wages during the playing season in the English league run to eight pounds a week. That amounts to about \$40, which is pretty light pay in comparison to the salaries big athletes draw down on this continent.

The visitors noticed the English atmosphere in Victoria, and appreciated Canadian hospitality more than that accorded them in the United States. There was too much "biggest and best" in New York for them to stomach. They did not see any major league baseball. They think that's a sissy game.

As Charlton worked through the major part of the first half scoreless, Tann expressed the belief they were suffering from too much football. They were getting a little stale from their chosen sport.

Everything clicked in Calgary, where the tourists swamped the home team, 12 to 1. The Charlton boys got an early goal and kept going in a game in which they just couldn't seem to make a mistake, Tann said.

### Salmonbellies Defeat Adanacs

NEW WESTMINSTER—Outscoring their intercity rivals in every period, New Westminster Salmonbellies whipped the Adanacs 18 to 8 last night before a packed house of 5,500 and took over undisputed first place in the Inter-city Box Lacrosse League standings. Scores were turned away from Queen's Park arena as the two Westminster teams prepared to take the floor.

## As Victoria Defence Held Out Charlton

Feature of last night's exhibition soccer match between the Victoria All-Stars and the visiting Charlton Athletic was the fine exhibition turned in by the local back division. In the above photos the Victoria defence is seen breaking up Charlton attacks. The top picture shows Louis DeCosta, Victoria goalie, clearing a shot with Don Welsh, Charlton centre forward, closing in on him. Just after the picture was taken Welsh carried DeCosta into the net. Right behind Welsh is John Roper, Victoria back, with George Leggett, the other local back, at the extreme right. The bottom scene shows Monty Wilkinson, Charlton outside right, taking a shot at goal with DeCosta waiting to make the save. The player with his leg in the air is Roy Barnes, Victoria centre half, with Leggett, number three, having his back to the camera.

Charlton Athletic and Victoria Team Guests of Provincial Government

As guests of the Provincial Government yesterday evening at the Empress Hotel, members of the visiting Charlton Athletic Club and the Victoria All-Star aggregation, gathered at a banquet to officially wind up the crack English soccer club's brief stay in the city and to convey parting messages of good will. About 60 persons were present.

Due to a last-minute call for a cabinet session, government representatives were unable to show up for the affair. However, Mayor Andrew McGavin and Alderman James Adam were present on behalf of the city, with the latter presiding.

Speaking briefly to the gathering Jimmy Seed, manager of

Five Former U.S. Walker Cup Players to Compete in Tacoma Event

SEATTLE—They usually say it anyhow, but this time it really looks like the Pacific Northwest Golf Association tournament, scheduled to open in Tacoma Monday, will attract the strongest field ever.

No less than five former Walker Cup golfers and six former northwest champions will vie for the title held by Harry Givan of Seattle.

Among the big shots who are reappearing in the competition are Don Moore and Dr. O. F. Willing of Portland, Jack Westland, formerly of Everett and Chicago, and Scotty Campbell and Givan of Seattle, all ex-Walker Cup representatives.

Lameness developing from a slight injury to a tendon of his left foreleg led to Omaha's withdrawal from the Ascot Gold Cup race, June 17, and Woodward declared the American three-year-old champion of 1935 would be shipped back to the United States immediately for breeding purposes.

Promoter Forecasts Big Turn-out For Braddock-Louis Bout Next Week

CHICAGO — Mike Jacobs, the man behind the Jim Braddock-Joe Louis heavyweight title fight a week from tonight at Comiskey Park, said today the bout "is a cinch" to draw a gate of \$1,000,000.

"The sale of tickets to Chicago people has been slow," said the New York promoter, who is acting as advisor to promoter Joe Foley, "and that's one reason why I'm sure the ticket sale will go to at least a million."

"The day of the second Dempsey-Tunney fight here \$500,000 worth of tickets sold. But before that battle, which crossed \$2,500,000 from more than 100,000 people, there was a full two weeks in which tickets went so slowly that everyone was worried."

"We haven't had any such lull for this fight. In addition, 60 per cent of the approximately \$650,000 already in for reservations is for out-of-town people—from cities in every part of the country."

The fight principals, meanwhile, continued to aim for peak physical condition at their respective camps. Louis was scheduled to box eight rounds at Kenosha, Wis., and Thursday planned to go 15, the title fight distance. The Bomber said he believed he would be in top shape when he enters the ring.

Braddock golfed yesterday. He will ease off after a ring drill today, being within three pounds of the 195 he said he would weigh the night of the battle.

Valerian In Win at Ascot

ASCOT, Berks. — A large crowd, headed by King George and Queen Elizabeth, today saw Sir Abe Bailey's Valerian win the Ascot Stakes of two miles, first big event of the 226th annual race meeting at this fashionable turf centre. Valerian won by a head from R. J. Froome's Kept-on, who, in turn, led A. J. Redman's Sir Calidore by three-quarters of a length. The winner went to the post a 5 to 1 shot. Kept-on and Sir Calidore each was held at 100 to 7. Twenty-nine ran.

Captures Medal Honors in Women's City Championship With Score of 86

Turning in a card of 86, Mrs. Arthur Dowell won medalist honors in the 18-hole qualifying round of the women's city golf championship at the Colwood Club yesterday. Mrs. Dowell, holder of the Colwood Club title, topped the field of 35 by a single stroke.

In a second place deadlock were Mrs. E. Jackson, recent winner of the British Columbia championship, and Miss Dorothy Fletcher, both from the Uplands Club. Miss Mary Mackenzie-Grieve, Uplands, defending titleholder, finished in a three-way tie for fourth position with an 88. The two Hodgson sisters, Peggy and Phyllis, from the Colwood Club, were even with the city champ. The next low scorer was Mrs. S. Enke, Gorge Vale, with a 90, followed by Mrs. Cecil Eve with 92.

In capturing the medal Mrs. Dowell was out in 44 and back in 42. She had seven pars on her card and a birdie at the fourteenth. The medalist had only two sixes on her round, one at the third and another at the sixth. Mrs. Jackson used up 44 strokes on the first nine and one less on the second. Miss Fletcher was out in 41 and back in 46.

One of the features of the afternoon was the fine 98 turned in by Joan Fletcher, who was playing over the course for the second time. She finished in a tie for the last place in the championship flight with Mrs. C. E. Wilson. They met in a play-off today.

Qualifying round scores follow:

Mrs. A. Dowell	86

## Jack Payne Gets 30-Pound Spring

While fishing off the kelp of Trial Island on Sunday, Jack Payne, Foul Bay fisherman, landed a 30-pound red spring salmon. Payne was using about 40 feet of line and slightly over a pound weight with a Clendon Stewart six all-brass spoon and minnow.

For the last few years Payne has started the ball rolling with Foul Bay fishermen by bringing in one of the first big fish of the season. Payne was fishing alone and caught his fish just at the change of tide, a few minutes after noon.

Esquimalt and James Bay to Meet in Season's League Opener at Enclosure

Second division box lacrosse squads will open their bids for league honors tomorrow evening at the Athletic Park, when Esquimalt and James Bay battle in the new box, starting at 6.30 o'clock. "Cotton" Brynjolfson will referee.

Last week the box was the scene of an exhibition tussle that officially opened Victoria's first boxla season. A lacrosse stick will be presented to the most deserving player on both teams at the conclusion of the match. This is to encourage good sportsmanship and reward merit.

The teams follow: Esquimalt—T. Derry, H. Busch-lager, B. Barker, G. Cooper, W. Robinson, H. Simmons, A. Simpson, E. DeCosta, B. Stewart, F. Buxton and A. Wyatt. James Bay—S. Clark, R. Winterburn, G. Story of the Circus

II--P. T. BARNUM

On a May day in the year 1851, the people of Hartford, Conn., were treated to the sight of circus bills which carried this message:

Phineas Taylor Barnum

"P. T. Barnum's Asiatic caravan, museum and menagerie--A young calf elephant will carry upon his back the Lilliputian general, Tom Thumb. Six beautiful lionesses fresh from the jungles! A Burmese bull from the island of Java! General Tom Thumb will sing and dance. Mr. Nellis, the man without arms, will load and fire a pistol, and do other feats with his toes. Admission 25 cents."

On the first of June, the circus came to Hartford, and the people were able to see the Burmese bull and the rest of it. The man in charge was Phineas Taylor Barnum, then 40 years of age.

Barnum was born at Bethel, Conn. As a very young man, he became editor of a small newspaper known as The Herald of Freedom. When he was 24, he moved to New York City, and went into the show business. People paid money to look at a negro woman who (according to the advertising) had been George Washington's nurse. Later he bought Scudder's American museum, and used it to display "a Japanese mermaid, a white nigger and General Tom Thumb."

The "mermaid" was really a monkey and a fish fastened together. Tom Thumb was a dwarf, a young man only 29 inches high. His true name was Charles Stratton, but Barnum believed the public would be more interested in "General Tom Thumb."

Barnum lived to the age of 79, and a great deal of his long life was spent in managing circuses which traveled from city to city. Usually he had one or two partners. His best known partner was James A. Bailey, who joined him in running the Barnum and Bailey circus. They called it "The Greatest Show on Earth."

Perhaps the greatest money-making feature ever added to the Barnum and Bailey circus was a giant elephant known as Jumbo. This animal was bought from the London zoo, and the cost seems to have been about \$10,000.

Jumbo was an African elephant which stood about 11 feet tall. Children had ridden on his back while he was at the zoo, and Barnum's posters showed this fact--but "stretched" it. Instead of picturing two or three children riding on the elephant, the posters showed a little army of about 40 boys and girls perched on Jumbo's back! The circus toured in Canada as well as through the United States. The profits on Jumbo have been figured at \$1,000,000.

## HOROSCOPE

WEDNESDAY, JUNE 16, 1937

Mingled good and ill may be expected through the hours of this day, according to astrology. The morning may be a time of encouragement through important news from industrial centres.

This is an auspicious day for signing legal documents. However, doubtful they may seem. There should be fair luck for many theatrical folk.

Letters received under this direction of the stars may bring offers of employment, or other opportunities.

Labor today is not well directed. Unrest and discontent will continue to be fomented, but there may be strong forces at work to stabilize industry.

Whilst this configuration prevails much secrecy regarding public policies may be maintained by government heads. The public will have to resort to conjecture on the international affairs.

Differences of opinion may be expressed in small as well as large groups at this time when there may be many controversy among men of positive ideas. The way also affects domestic relations unfortunately.

Fires are to be of unusual peril this month. Campers should be especially cautious. In cities explosions and conflagrations started by incendiaries may cause loss of life.

Persons whose birthdate it is have the augury of a year of advancement, socially and financially. New friendships are forecast.

Children born on this day probably will be fond of detail, exact in thought and to develop natural talents with success.

Frederic Schiller Lee, physiologist, was born on this day 1858. Others who have celebrated it as a birthday include Frederic Archer, organist, 1838; George William Coleman, sociologist, 1867.

## Dorothy Dix's Letter Box

DEAR DOROTHY DIX--I am a young man, a college graduate, a lawyer doing well in my profession. For three years I have been desperately in love with a girl who loves me but who is a little idiot. I admit it, although I love her with every beat of my heart. She can't hold an intelligent conversation; she lacks tact, is selfish and conceited; yet she has me won completely. I want to be with her every minute. Her silly and childish gibber-gabber, which grates on the nerves of all who know her, fascinates me. She is a beauty but decidedly stupid. Don't you think that since my love has endured three years and since I am well aware of her lack of brains and love her in spite of it, I can safely embark upon the sea of matrimony? Does it matter if you have a wife who is a dumbbell as long as your friends can slap you on the back and say: "My what a peach you've married!" Let me have some your advice, Miss Dix.

B. M. L.

Answer: The objection to marrying a girl who has nothing but good looks to recommend her is that her attractions are evanescent and soon fade, hence the man who marries her is bound to lose out in the end. She isn't even a good matrimonial bet. She is a certain loss.

Time fades the roses in the fairest cheek. It streaks the loveliest tresses with grey. It etches crow's lines about the most glorious eyes. It turns the most lissom figure into fat or scrawny. This is bound to happen, and then who so lacking in allure as the faded beauty who lost her all when she lost her looks? Believe me, son, if you marry this girl, ten years hence your friends will not be slapping you on the back and envying you for having got a peach. They will be giving your hand the grasp of sympathy for having a wife who is dumb and isn't even easy on the eyes.

And believe this also, son, that no woman ever gets as ugly as a stupid and selfish woman does when she is old. When the radiance of youth is gone, and the vivacity that is merely health and strength and hot young blood, is quenched, there is nothing in a woman's face to redeem it unless she has intelligence and heart and soul. She is just a flabby mass of flesh, or repulsive as a corpse. You know plenty of such old women, stupid and dull, whining and complaining or babbling of their lost youth and beauty. Boreds of bores.

But you also know many old women who have lost whatever pulchritude they may once have had, or who perhaps were never good-looking, but they have brains; they have read and studied and improved their minds, and thought and understood as they have lived. Their eyes are still bright, their forms alert, and they are so interesting, entertaining and amusing that they are the centre of attraction wherever they go. And you have seen other women whose very goodness made them beautiful because their souls shone in their faces like a light under an alabaster bowl.

So I would earnestly advise you not to marry a girl simply because she was beautiful. You may be proud of your living picture and enjoy gazing upon it for a year or two, but you would soon tire of it and long for a wife who could be a companion to you, who could enter into your hopes and plans and help you to succeed. You would find that your pretty folk bored you to extinction with her babble when it was the only mental pabulum you had at home. You would want somebody with whom you could discuss the topics of the day, the new books, the political trend, not one who wouldn't know what it was all about and whether the New Deal was a new cocktail or not.

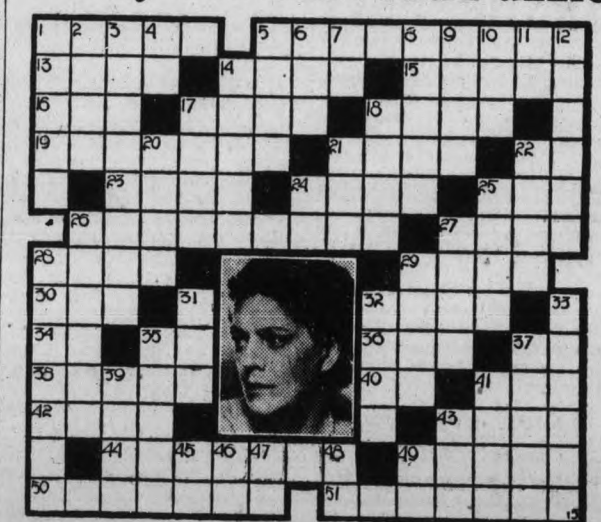

It is pretty lonely for a man to have a wife to whom he can only talk baby talk and tell her what lovely eyes she has. If you will consider the philandering husbands you know, you will find that nine-tenths of them married pink-and-white little girls with cute little kittenish ways, without considering what was under their curls, and who took to roaming when the pink-and-whiteness turned sallow. The cuteness proved to be mere brainlessness and they were so bored at home that they had to find some woman who had sense enough to entertain and amuse them.

The moral of which is: Don't marry a girl just because she is beautiful unless you expect to marry on the installment plan and swap wives as often as you do your automobile.

## H. HUSBAND IS BACK IN CITY

Investigated Transport Problems and Victoria's Airport Question in East

After attending executive meetings of the Dominion Motor Coach Association and the Canadian Transit Association in the east, and conferring with Hon. C. D. Howe, Minister of Transport, on bus and truck legislation and Victoria's brief seeking airport facilities, Harold Husband, general manager of the Vancouver Island Coach Lines, is back in the city today.

As vice-president of the Dominion Motor Coach Association, Mr. Husband represented the western provinces at the conference of that body.

For the first time in Canada's transportation history, Mr. Husband was successful in arranging fact-finding and discussion meetings between nation-wide representatives of the motor coach industry and representatives of the two transcontinental railways, as well as from the National Railway Passenger Association and the Michigan Central Railroad.

The joint meeting subsequently interviewed Hon. C. D. Howe and discussed with him various phases of the vexed question of the application of the bill which proposes to extend Dominion jurisdiction to international and inter-provincial bus and truck operations. Mr. Husband explained that interprovincial operations were at present confined to provincial jurisdiction under the terms of the British North America Act.

As a delegate to the meetings of the Canadian Transit Association, Mr. Husband expressed himself as impressed with the almost universal trend to the appreciation of the utility of the motor bus for urban transportation.

Detailed inspections were made of the operations of the Montreal Tramways, Ottawa Electric and the Toronto Transportation Commission, and Mr. Husband finds motor bus equipment performing mass transportation functions with increasing comprehensiveness. In fact, he states that the most forward-looking discussions on urban transportation developments were along these lines.

### AIRPORT BRIEF

As president of the Victoria Chamber of Commerce, Mr. Husband interviewed the Minister of Transport on behalf of the efforts of the Greater Victoria airport committee to secure airport and emergency landing facilities here in connection with the Dominion's transcontinental air mail plans.

Mr. Howe assured Mr. Husband that he was looking into Victoria's representations and stated that he intended to visit this city next month and would then go further into the matter with the committee.

## Orient Trip For Premier Mooted

Premier Pattullo some day may take a trip to the Orient and other Pacific countries in the interest of promoting British Columbia trade, but it will not be in the immediate future.

This was indicated by the Premier today in comment on an editorial proposal of The Vancouver Sun that he take the role of trade emissary for the province to the Far East.

"For the present there are important matters to handle here at home," the Premier said. "It is very kind of The Sun to suggest it and perhaps, some day, it will be worth while."

## SEEKS LEASE ON ELEVATOR

Harvey Kavaner Reports Capital Contacted For Transfer

Mayor Andrew McGavin today called a special meeting of the City Council for tomorrow afternoon at 3.30 o'clock to consider extension of time allowed Harvey Kavaner, former Winnipeg grain man, for completion of negotiations for the leasing of the Panama Pacific Grain Terminals Ltd. elevator at Ogden Point.

In a letter received at the City Hall today, Mr. Kavaner informed the mayor he had contacted \$40,000 of British capital for investment in the proposed business he intends to set up. He would be able, Mr. Kavaner wrote, to interest another \$30,000 if that were required.

Action by the council is required inasmuch as the last extension granted Mr. Kavaner to complete lease negotiations has lapsed.

Terms for a lease were drafted by the city solicitor on the report of the finance and business and trades development committees in November last.

## WORKER FALLS ON COMPANION

A. Clifford Bull, B.C. Telephone Lineman, Injured at Jordan River

Arthur Clifford Bull, 854 Carrie Street, B.C. Telephone Company lineman, was seriously injured late this morning in an accident where the line gang was engaged at Jordan River.

Suffering from undetermined head and back injuries, Bull was removed to the Jubilee Hospital this afternoon, where he was attended by Dr. W. H. Moore.

It was reported that Bull was injured when a fellow worker, J. J. O'Brien, 417 Vancouver Street, fell on him from part way up a telephone pole on which he was working. It was reported the wood in the pole gave way as O'Brien took hold with his climbing irons. O'Brien was also brought to hospital, but it was not thought he was seriously hurt.

Bull was rushed to the hospital in the C. & C. ambulance, which left town at 11.30, and returned with him shortly after 2 o'clock.

## CYCLIST DEATH WAS ACCIDENT

Coroner's Jury Returns Verdict in Case of Sidney Saunders

A coroner's jury returned a verdict of accidental death in the case of Sidney Saunders, cyclist, who was killed in a collision with a car on the intersection of Johnson and Alston Streets. The inquest was held in Sands Mortuary this morning.

The jury was out for eight minutes. Reginald Sampson, driver of the car, testified that he was traveling at a speed of between 25 and 30 miles per hour toward town when a cyclist suddenly swerved in front of him. He swerved to the left but failed to avoid the cyclist. He said that he did not notice any car turning to the left at the time of the accident.

John R. Johnston testified that he had just pulled out from the curb and was turning to the left down Alston Street when he noticed a cyclist abreast of him.

"Suddenly this cyclist swerved right out into the middle of the road," Mr. Johnston said. "And a car passing me struck him."

Constable Roy Woolsey, who was called to the scene of the accident, said he found the body in a pool of blood about forty-five feet from a mark in the road where the front forks of the bicycle had evidently dug into the asphalt. There was a pot hole not far from the accident, he said.

Miss Violet Day, who with her sister and Miss Bessie Williamson, were passengers in the car involved in the accident, testified that she turned her head at the moment of impact and did not see the accident.

Hugh Devereaux, who was the first at the scene of the accident, said that the car traveled about 100 yards down the road before turning round and coming back to the place where the body lay.

John Saunders, brother of the deceased, Dr. A. E. McMicking, Leonard Clifford and William G. Morrison, also testified. Inspector John Bolton and George Sedger questioned the witnesses.

"Cases like this are unfortunately remarkably prevalent," Coroner Hart said in giving his instructions to the jury.

Members of the jury were Richard Norman Higgins (foreman), Robert Brown, Norman Stewardson, Douglas Buckle, Fleming Stewart and Gordon Sword.

## Seven-inch Peonies Produced Here

H. Neville Wright, who, besides being Deputy Minister of Finance for British Columbia ranks high as an amateur gardener, today displayed a bunch of huge peonies as evidence of his success in this field.

In a delicate pink shade some of the blooms measured seven inches across.

They were planted in a deep hole which had a foundation of compost, well cultivated and carefully nurtured to perfection.

## Woman Bears Six Sets of Twins

PUTNAM, Conn. — The sixth set of twins in little more than a decade was born to Mr. and Mrs. Harry Field, East Thompson, in a hospital here Saturday.

A five pound eight ounce daughter and a six pound boy were born within forty minutes of each other.

The first set of twins—a boy and a girl—were born to the Fildes January 16, 1926. In 1928 and 1929, twin girls were born; another mixed set in 1932, and twin boys in 1935.

In addition to the twins, three other children have been born to the Fildes. Fildie, who is fifty-seven, is a road laborer. Mrs. Fildie is thirty-nine.

## SAFEGUARDS IN T.B. ORDER

Weir Amends Wording of New Regulation to Provide Medical Tests

Safeguards for individual rights will be added to the provincial government's new order compelling hospitalization or confinement for infectious tuberculosis cases, Hon. G. M. Weir, Provincial Secretary, said today.

The order as originally passed by the cabinet gave full powers to apprehend and detain a person found suffering with tuberculosis in a contagious stage.

An amendment has been drafted, Dr. Weir said, providing that before a person is confined the tuberculosis control board and local health officer as being dangerous to the public health. This provision, while intended, was not actually contained in the first order, he said.

TORONTO—In recent speeches Premier Hepburn of Ontario disclosed the provincial government was considering a plan of compulsory treatment for tuberculosis sufferers, but details have not yet been announced.

OTTAWA—The Dominion-wide committee which will lead in the attack on tuberculosis among the Indians was announced yesterday by the Indian Affairs branch. The committee will confer here next week when leading authorities on tuberculosis will be in Ottawa for the meeting of the Canadian Medical Association.

Approval of proposed provincial legislation which would empower health authorities to force cases of tuberculosis in a contagious form to observe isolation requirements, was voiced by Dr. Richard Felton, city medical health officer today.

Such authority was required in only a limited number of cases, Dr. Felton explained. If isolation could be effected at home, he did not think the case would be required to go to hospital, he said. In some instances, particularly one specific case in Victoria, isolation orders had been totally ignored by a case of menacing contagion. It was to restrict the spread of the disease through such people the move was aimed, he said.

Dr. Felton expressed the opinion that compulsory isolation would not account for any great expenditure of public money. The number of cases involved was not high enough to make a material financial barrier to the scheme. Such compulsory isolation would not increase the costs to the city, he understood.

## I.O.D.E. Plan Fete At "Clovelly"

A large attendance of members of the Mary Croft Esquimalt Chapter I.O.D.E. gathered yesterday afternoon at the home of the regent, Mrs. G. P. Clarke, Munro Street, for the last meeting of the season.

Conveners were named for the annual garden party to be held on July 21 at "Clovelly" by kind invitation of Lady Barnard. In addition to the garden attractions, with tea served in the pavilion on the lawn, bridge and mah jong will be played in the house. Conveners included: Tea, Mrs. A. Bishop; Mrs. Mason and Mrs. J. T. Jones, home-cooking; Mrs. H. Cresine, candies; Mrs. J. Quinn, spinning jenny; Mrs. H. D. Austin, tea tickets; Mrs. Pocock, Mrs. D. M. McIntyre, superfluities; Mrs. A. Youngman, Mrs. Cross, gate; Mrs. R. P. Matheson, publicity.

Provincial reports were read, and a film convener, Mrs. M. Ryley, appointed.

Mrs. R. P. Matheson, in report on secondary education, stated that she and other members had attended the Coronation celebrations at Lampson Street School, when the regent had distributed the medals and also presented the chapter's gift of framed portraits of King George and Queen Elizabeth.

Mrs. Quinn, standard-bearer, had attended all I.O.D.E. ceremonies with the standard.

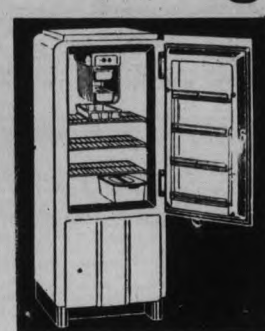

Mrs. Bishop announced the inspection of sea cadets will be held on July 2. Mrs. Pocock reported on Esquimalt Scouts and Cubs. Mrs. Matheson, in her report on Girl Guides, asked support for the garden party to raise funds for the guide campsite, to be held on Tuesday, June 29, at the home of Mrs. G. P. Clarke.

The chapter's convener for Alexandra Rose Day will be Mrs. A. A. Warden. A new member, Mrs. A. D. Lockley, was welcomed. Mrs. A. D. Whittier, St. Ann Street, was the winner of the nightingale competition.

After the meeting, tea was served, the hostess being assisted by Mrs. Warden and Mrs. Youngman. The table was centred with a bowl of pyrethrum, love-in-a-mist and nepeta.

## Trees Relate Sunspot Story

Kiwanians Hear Cycle of Solar Activity From Dr. W. E. Harper

The fascinating story of how trees have proved to man that the sun has been following its present eleven-and-a-quarter year cycle of sunspot activity for thousands of years in the past was told to the Kiwanis Club at its luncheon in the Empress Hotel today by Dr. W. E. Harper, director of the Dominion Astrophysical Observatory, Little Saanich Mountain.

At the same time Dr. Harper told the club something of the effects of sunspots on everyday life.

Man's interest in any change in the radiant activity of the sun was a vital one, he said, because all life and power came from it. Even coal and oil were bottled sunshine, stored up by trees millions of years ago.

Trees came into the sunspot picture because their rings recorded clearly the more vigorous growth in the years when there was the most ultra-violet light, which were the years of greatest sunspot activity.

Scientists had first cut down living trees, then gone further back by examining the timbers of old Indian dwellings. The next stage into the past had been in checking the ring structure of the 4,000-year-old sequoias of California. The oldest record of all came from a spruce tree found a few years ago entombed in a glacier of northern British Columbia, dating back between 60,000 and 100,000 years. Its rings told the same story of the eleven-year cycle.

### NEAR PEAK ACTIVITY

The earth was at present within two years of the peak of one such cycle of sunspot activity.

Sunspots were the gushing out of matter hundreds of thousands of miles into space from the sun's mass. When the eruption was of particular violence the electrified particles were thrown beyond the field of the sun's gravitational pull. If the earth was in the line of their discharge, compasses, telephones and telegraphs were often affected, and the aurora borealis was vividly seen.

The last year had brought a new item of knowledge in the matter of sunspots—that at every appearance of a spot there was an immediate fading of one or more channels of radio communication.

As to the other theories about sunspots—that wars, epidemics, crops and even the number of rabbit skins on the market were connected with their cycle—Dr. Harper said "One ought to be conservative until more information is on hand. . . . It is easy to prove almost any relationship by picking the right data."

The speaker was introduced by Harry E. Douglas.

Gordon Shaw, optometrist, amateur astronomer and musician, was introduced as a new member of the club by Rev. E. F. Church.

Walter M. Walker, president, was in the chair.

**At Exposition**

British Columbia will enter an exhibit at the San Francisco Golden Gate International Exposition in 1939. Premier Pattullo said yesterday.

The Premier said detailed arrangements for the exhibit had not been discussed, but the province would take good space at the exposition.

San Francisco is expecting millions of visitors for the affair, and British Columbia's tourist business should benefit substantially from those who go north after visiting the California city, he said.

Major O. J. Keatinge, exposition representative, conferred with the Premier recently on the plan to enter a British Columbia exhibit.

## Old Boys Hold Annual Meeting

St. Michael's Association Elects J. Monteith As New President

On Saturday last St. Michael's School Old Boys' Association held its seventh annual gathering. In the afternoon the Old Boys played their annual cricket matches, the first team playing the fathers' team and the second team playing the school. The school proved far too good for the second team, winning by a score of over 70 to 25, but the first team beat the fathers in a splendid game by a score of 125 to 70.

In the evening the Old Boys gathered in the school gym for the annual supper, 57 being present. The guest speaker was Herbert Anson. Other guests were the Venerable Archdeacon A. E. de L. Nunn, Capt. F. G. Dexter, and J. Grant and C. E. Ley. After the toast to the King, Mr. Anson gave the meeting an excellent speech, stressing the increased recognition in all branches of public life of education, the fact that opportunity for the youth of the country now is as great as it has ever been, and that keeping one's word was of cardinal importance.

The president, Mr. Bridgman, then called on Capt. Dexter for a few words. Before proposing a health to the school, Capt. Dexter spoke of the value of the Old Boys' Association to the school and said how St. Michael's had been recognized now for 27 years as an institution devoted to fair play, sportsmanship and good scholarship. The headmaster, K. C. Symons, then responded, thanking Capt. Dexter for his words and outlining the remarkable successes the school had had this year in games and work.

**ANNUAL MEETING**  
Following a fifteen-minute recess, the association held its annual general meeting, with Mr. Bridgman in the chair. The secretary read his report, showing how the association had now reached a total of 111 life members, distributed throughout the world, and in every recognized business. Then followed the election of officers for the following year, which was as follows: President, J. Monteith; vice-president, M. Bridgman; secretary-treasurer, E. J. Symons; committee, P. Salmon, R. Worsley and M. Symons.

**FOOTBALLERS AT BANQUET**  
(Continued from Page 9)

The field were good generally and made special mention of the defence, which he maintained was different from any other form they had encountered on the tour or at home. The manager complimented the local club on the fine manner in which they had tried to stop the Charlton Club from reaching its objective during the evening's game and intimated that should the team

keep together Victoria would have a real good representative body in a year or two.

**JUDGES BY GOALS**  
During the course of his talk, Seed said he judged a good team of footballers on the number of goals they can score, not classy play, noting that after all it was goals that counted, no matter which way they were scored. He said many persons of the old school still judged a team on its good field work.

After recounting a humorous ditty about after dinner speakers, Dr. John Montgomery, physician of the touring club, said that they had been treated royally throughout the tour and indicated the fine record Charlton Athletic has attained, which he said will be hard to equal.

Bert Turner, captain of the First Division English soccer squad, said that the visiting team really enjoyed the game. He emphasized that the All-Stars put up a great battle. "It was a pleasure to have been able to meet such a team as Charlton Athletics," Roy Barnes, captain of the Victoria squad said. He hoped that Victoria players would be able to improve their play from the experience.

On behalf of the citizens of Victoria, Mayor Andrew McGavin welcomed the tourists, pointing out that it has been a long time since he has seen such a fine team functioning.

"The finest body of athletes he has ever seen from the Old Country." That was the way Chairman Alderman Adam complimented the Charlton team. He also conveyed a message of warm welcome from Premier Pattullo and his cabinet.

Alex Robertson, local member of the B.C. soccer commission spoke briefly.

Tomorrow evening, after 5 o'clock, a mixed greensome will be played over the inside nine holes at the Victoria Golf Club, to be followed by a buffet supper in the clubhouse. Players will choose their partners and opponents and arrange for their starting times. Post entries can be made at the clubhouse. The success of these competitions will depend largely upon the number of entries. Members who desire to play and would like women partners are asked to get in touch with the secretary.

**LILLE, France**—Seventy girl workers collapsed today in two eerie mass faintings at a Lille

Thirty fell to the floor, swooning, this morning, and forty more fainted this afternoon. Experts worked throughout the day to determine the cause. Most of the victims were younger workers, 17 years old or less, and somewhat frail. None was in a serious condition afterward.

NEW YORK (AP)—Recoveries of fractions to three or more points predominated in today's stock market as strike news appeared less of an important selling influence.

## A black and white photograph showing a close-up of a building's exterior. On the left, a sign is visible with the word "WATER" and the numbers "100-1000" below it. The building has a textured facade, possibly stone or concrete, and a window is partially visible on the right. The lighting is dramatic, with strong shadows.
